

Alger Delta Cooperative Electric Association

426 N. 9th Street - Gladstone, MI 49837 1-800-562-0950 or 906 428-4141

Instructions:

- 1 Use this form if you are applying to have new electric facilities installed on your property for the purpose of providing electric service to a permanent or seasonal residential dwelling, camp, cottage, mobile home, barn, outbuilding, or similar location.
- 2 Complete all the information on this application form.
- 3 Complete and attach detailed site sketch, blueprint, survey, plat or similar document (see attached example for details).
- 4 Complete the liability waiver form.
- 5 Attach a check for \$250 and mail to:

Alger Delta Cooperative Electric Association – 426 N 9th St. – Gladstone, MI 49837
- 6 Questions: call Alger Delta at 906-428-4141

Application Process and Explanations:

- 1 Alger Delta will review your application and contact you should any information be missing or incomplete.
- 2 When your application is deemed complete, Alger Delta will schedule one of our Line Stakers to visit the property or location where you have requested service and will complete an Electric Service Estimate Sheet. A copy of the Electric Service Estimate Sheet will be sent to you.
- 3 Review the Electric Service Estimate Sheet when you receive it. The Electric Service Estimate Sheet is valid for 120 days and will show the estimated cost to install the electric facilities required to provide service.
- 4 In order to secure a place in the construction schedule, you must pay the full amount shown on the Electric Service Estimate Sheet in advance.
- 5 Upon receipt of your payment, construction will be scheduled.
- 6 Should you decide not to begin construction within the 120 day estimate period, the application fee will be applied to Alger Delta's cost to provide the estimate and shall not be refunded and shall not be applied as a credit on any future estimates or actual construction.
- 7 Frost charges help pay for the additional cost of fuel and special equipment that may be required in order to begin construction during the period of the winter when the ground is frozen. If you request construction to begin during the frost period (November 1 – April 30), a frost charge shall apply. If Alger Delta chooses to begin construction during this period, frost charges shall not apply.
- 8 The amount shown on the Electric Service Estimate Sheet is an estimate. It is based on the cost of labor and materials necessary to provide electric service. The estimate is based on the information provided by you and known at the time the estimate is provided. Changes at the site, changes in planned construction, and unanticipated or unknown conditions may result in re-estimating the cost to provide electric service. Alger Delta reserves the right to adjust the estimate at any time.

Cancellation:

The applicant may cancel the Application for Electric Service at any time. If construction is cancelled, the applicant shall receive a refund equal to the Total Estimated Amount minus a cancellation fee of \$250 and minus all costs incurred (typically the cost of labor, materials, equipment, transportation and engineering).
